**The SCHOOL IS AIMED FOR THOSE WHO ENJOY CHALLENGES**

Teachers are very kind so they help you whenever you have a problem with your studies or your daily life. I also think the way of learning grammar is very good since we have to think of our own examples after the teachers explain it.

**Be sure to apply here, the school is really nice!**

I fell in love with Tokyo after a trip and decided to try and experience living in Japan and enjoying its culture. There is a large variety of nationalities in my class, so I have gotten to meet a lot of different people. In the future, if I am still enjoying my time in Japan, I will consider applying to a Vocational School.

**The school takes care of you from the beginning.**

I am feeling safe because the school helps me with any problem that might occur and with the questions I may have. It is good when you don't need to worry, especially when you are not yet with the lifestyle of another country. The lessons are useful which gives you the opportunity to make friends and have fun in Japan!

I enjoy the blend of ancient culture and modern convenience. The school's facilities are well-planned and conducive to study. The teachers are patient as I struggle through difficult parts of the grammar, and they challenge me to express myself in ways appropriate to the Japanese cultural context.
